Subject: Response to Comments on September 12, 2008 Institutional Controls Annual Report
for Del Monte Corporation (Oahu Plantation) Superfund Site, Kunia, Oahu, Hawaii

Dear Ms. Rosati,

On behalf of James Campbell Company LLC (Campbell), LFR has prepared the following responses to the comments you provided in your November 26, 2008 letter regarding the above-subject report. We have included your comments with our responses in italics below. Additionally, we have revised the report (attached) incorporating the changes you requested.

1. Pursuant to Paragraph 7 of the Institutional Controls Consent Decree, JCCLLC provided EPA written notice whenever a proposed conveyance by JCCLLC of title in property located within the Del Monte Superfund Site was about to occur. It would be helpful to include this information in the ICs report, i.e., the name of the purchaser and the name of the property, parcel or Section and the date of the conveyance.

LFR response: We have expanded Section 3 of the report. The requested information has been included in a Table in Section 3.1 of the revised Institutional Controls Annual Report (IC report).

2. Please specify whether the new owners were notified of the Consent Decree and the Restrictive Covenants.

LFR response: The new owners (Kunia Agricultural Park and Syngenta) were notified as indicated in Section 3.1 of the IC report.

3. Section 3.0 states "At the time of the preparation of this report, approximately 426 acres of Lot 882-A is owned by Fat Law's Farm, Inc." Please specifically state that Lot 882-A is within the Well Restriction Area and show the boundaries of Lot 882-A on Figure 2. Please also discuss in the text and show on Figure 2 the other parcels or lots that are within Lot 882-A.

LFR response: Section 3.3 has been added to the IC report and the text has been revised to state that a portion of Section 8 (Lot 882-A) is within the Well Restriction Area. The

Section designations, Lot Numbers and the intersection of the various Lots with the Well Restriction Area have been added to Figure 2 of the report.

4. What is the status of conveying the Source Area? Will JCCLLC maintain ownership or will title be conveyed to the Hawaii Agricultural Research Center (HARC). Please describe the status in the report.

LFR response: As stated in Section 3.2 of the revised IC report, Campbell currently retains ownership of the Source Area. Campbell is in negotiations with Hawaii Agricultural Research Center (HARC) regarding the property, but will retain ownership until the transaction with HARC is finalized.

5. The source area was surveyed in August 2008 by Del Monte Fresh. Please provide an updated map of the Source Area in the Figures.

LFR response: An updated map of the Source Area is included in Appendix C of the revised IC report. The City and County of Honolulu Department of Planning and Permitting has given preliminary approval of this map.

If you have any additional questions about this information, please call me at (808) 522-0321.

Sincerely,

Jeffrey C. Morrell, P.E.

1.0 INTRODUCTION

LFR Inc. (LFR) has prepared this Institutional Controls Annual Report (IC Annual Report) on behalf of the James Campbell Company LLC (Campbell) to comply with the requirements of the March 19, 2007 Institutional Controls Consent Decree (Consent Decree) for the Del Monte Pineapple Kunia Plantation Superfund Site (the site, Figure 1). Campbell is the current owner of portions of the former Kunia Plantation which includes the Well Restriction Area and the Source Area shown on Figure 2. The U.S. Environmental Protection Agency (EPA) identification number for the Site is HID 980637631.

2.0 PROJECT OBJECTIVES

The Consent Decree requires that Campbell monitor institutional controls at the site to verify that property owners and lessees have not:

1. undertaken any construction in the Source Area or the Well Restriction Area that has damaged or interfered with, or might damage or interfere with, any basal groundwater monitoring or extraction wells, or equipment associated with those wells; or
2. submitted an application for a water-use permit to withdraw water from any well located in the Well Restriction Area.

The objectives of this report are to summarize activities undertaken by Campbell during the previous year to comply with the requirements of the Consent Decree and to certify such information as required by the EPA. This report is for the period September 18, 2007 to September 17, 2008.

3.0 MONITORING OF INSTITUTIONAL CONTROLS

To comply with the Consent Decree, LFR performed an annual review of State of Hawaii Department of Land and Natural Resources (DLNR) Water Commission Monthly Reports and performed a site visit to verify that required institutional controls were in place. Additionally, records were obtained from Campbell pursuant to Paragraph 7 of the Consent Decree which requires that Campbell provide EPA with written notice whenever a proposed title conveyance of property within the site was about to occur. This information is summarized in the following sections.

3.1 Conveyance of Property Title

Property conveyance during that past year is summarized in the table below and a copy of relevant correspondence and documents for the Kunia Agricultural Park is presented

in Appendix A. A copy of relevant correspondence and documents for Syngenta is presented in Appendix B.

Purchaser	Site Section	Conveyance Date	Notified of Consent Decree and Restrictive Covenants
Kunia Agricultural Park (Fat Laws Farm Inc.; Law Tiengs Farm LLC; Tony Law and Manyvone Law; and, Hae Viengkhou and Phouangpet Viengkhou)	Section 8 (Lot 882-A) Figure 2	January 23, 2008	Yes
Syngenta Hawaii, LLC	Section 6 (Lots 880, M-9-A, & 169) Figure 3	September 3, 2008	Yes

3.2 Status of Remaining Property

During this reporting period Campbell retained ownership of Sections 7 and 9, and the Source Area. Campbell completed the sale of Sections 7 and 9 (Figure 4) to Army Hawaii Family Housing, LLC on December 10, 2008. Property transaction information for Sections 7 and 9 will be included in the 2009 IC Annual Report. Campbell is currently continuing negotiations with Hawaii Agricultural Research Center (HARC) regarding their proposed purchase of the Kunia Village including the Source Area. Campbell will retain ownership of the source area and Kunia Village until the transaction with HARC is finalized.

The City and County of Honolulu Department of Planning and Permitting has recently given preliminary approval for the proposed boundary of the Source Area. A copy of the Proposed Source Area- Kunia Wells map is presented in Appendix C.

3.3 Records Review

Campbell provided property transaction information for this reporting period (Appendix A and Appendix B). That information indicates that Section 8 consisting of

Land Court Lot 882-A (as shown in Figure 2) was conveyed to Kunia Agricultural Park (KAP) on January 23, 2008. This property is approximately 426 acres in area, portions of which are within the Well Restriction Area. The Certification of Compliance, signed by Tim Law, a representative of KAP is provided in Appendix D.

Section 6 consisting of Land Court Lots 880, M-9-A and 169 (as shown in Figure 3) was conveyed to Syngenta Hawaii, LLC on September 3, 2008. This property is entirely within the Well Restriction Area. Because the sale to Syngenta did not close until the end of the period covered by the 2008 IC Annual Report, the Certification of Compliance, signed by a representative of Syngenta, will be provided in the 2009 IC Annual Report.

LFR reviewed Monthly Water Resource Bulletins prepared by the Hawaii Department of Land and Natural Resources (DLNR) Commission on Water Resource Management (the Water Commission) to verify that no new applications for well installation or water use permits within the well restriction area have been submitted during the previous year. The Well Restriction Area covers portions of DLNR well quadrants 3-2503, 3-2603 and 3-2703 as shown in Figure 5. No well permits or water use permits were submitted to the DLNR for these three quadrants during this reporting period.

LFR also reviewed the publically available minutes for the Monthly Water Resource Bulletins meetings of the Water Commission. This review verified that no water use permits for the Well Restriction Area were submitted to the DLNR during the previous year. The monthly reports are included in Appendix E.

3.4 Site Inspection

On September 2, 2008, Jon M. Mollison and Jeffery C. Morrell of LFR conducted a site inspection of the Source Area to verify that the remediation system and vegetative cap are intact and operational. At the time of the inspection, access to the Source Area was restricted by the presence of a six foot tall chain link fence. The fence prevents vehicle access from the northern (plantation village) side and the eastern (Kunia Road side) of the Source Area. The major components of the remediation system consisted of:

- A vegetated soil cover and storm water controls uphill of the source area.
- A soil vapor extraction (SVE) system to remove contaminant mass from the deep soil and reduce perched water impacts on the basal aquifer. Extracted soil vapor is treated using carbon absorption.
- A groundwater extraction system providing hydraulic containment and dewatering of the perched aquifer area. Extracted groundwater is treated using phytoremediation.

The Source Area had been graded and a vegetative cover was in place at the time of the inspection. The vegetative cover consisted of recently hydroseeded native grasses and a newly installed irrigation system. The storm water control system in the source area consisted of grading the ground surface to direct runoff without creating gullies and to prevent ponding. Storm water in the upper portion of the source area (near the Kunia Well) is directed into a concrete diversion ditch capable of conveying a 100-year storm event to a drainage swale directing water off-site to the East and across Kunia Road. The drainage ditch is connected to the swale by a large culvert culminating in an energy dissipater.

LFR inspected the SVE system which was installed on a concrete slab protected by a roofed and open sided pole barn. The well heads and piping for the SVE system, and the groundwater extraction system, appeared to be in working condition with no visible damage or causes for concern.

LFR also conducted a drive-through inspection of the Well Restriction Area to verify that no new wells have been constructed without notification to the State Water Commission. Access to the basal monitoring wells was provided by well maintained agricultural roads. Basal monitoring wells BMW-1 through BMW-6 were confirmed to be present and in good working order. However, LFR noted that the surface completion of BMW-6 did not include traffic bollards to protect the above ground components of that well.

4.0 SUMMARY AND CONCLUSIONS

LFR conducted activities to verify that institutional controls were restricting land and/or water use in the Source Area and Well Restriction Area of the Site. Based on our review of available information LFR concluded the following:

- Affected lessees and landowners certified compliance with the Consent Decree.
- No permits for water use have been requested of the DLNR's Water Commission.
- An inspection of the Source Area and basal monitoring wells confirmed that the remediation system is intact and operational.
- No construction or other activities have interfered with the functioning of the basal monitoring wells.

1. Drainage. Grantor hereby reserves the right to have surface runoff of water from lands upslope from or adjacent to the Property flow through the Property towards more downslope lands. Grantees shall develop the Property so as to accept such drainage from the benefitted upslope lands and to avoid any damage to adjoining lands from water runoff, and if required by applicable government authority, Grantees shall construct any drainage structure necessary to accept such upslope surface runoff and/or to prevent such damage.

2. Reservation of Access, Utility and Other Rights.

a. Army Road. Grantor hereby reserves unto itself, and unto its successors and assigns the right, at their respective own cost, to create an access and utility easement within the Property in the location of the existing road through the Property known as the "Army Road" by designating the same in the Office of the Assistant Registrar of the Land Court of the State of Hawaii or in such other location within the Property as may be mutually acceptable to Grantor and Grantees or their respective heirs, devisees, personal representatives, successors, successors in trust and assigns. b. Widening of Easement "49". Grantor hereby reserves unto itself, and unto its successors and assigns, the right, at their own respective cost, to widen Easement "49" (Map 10) to no more than fifty (50) feet wide, provided that the person seeking such

widening obtains all necessary governmental approvals for such widening, including without limitation, a Land Court Order effectuating such widening.

c. Kunia Road Widening Setback. Grantor hereby reserves unto itself, and unto its successors and assigns, the right, at their own respective cost, to create a road widening setback of no more than thirty (30) feet along the boundary of the Property and Kunia Road by designating the same in the Office of the Assistant Registrar of the Land Court of the State of Hawaii.

d. Rights and Obligations for Use of Easement Areas. The easement area described in paragraph 2.a (Army Road), (iii) portion of Easement "49" (Map 10 and Map 23) of Land Court Application No. 1069 located within the Property, and (iv) easement described in paragraph 2.c (Kunia Road Widening Setback) shall all be referred to as the "access and utility easement area". Grantor hereby reserves on behalf itself, and its successors and assigns, the right: (i) to construct, reconstruct, install, reinstall, use, operate, repair and maintain the road, curb, sidewalk and utilities within one or more of the access and utility easement areas, (ii) of ingress and egress to and from the access and utility easement area through portions of the Property immediately adjacent to and above the access and utility easement area for the purposes enumerated herein; (iii) to grant easements to use the access and utility easement area substantially in the form attached hereto as Exhibit B, provided that the form of grant of easement over the "Army Road" under paragraph 2.a (Army Road) shall be for access purposes only and shall be in the form attached hereto as Exhibit C, and (iv) such other rights in and to the access and utility easement area consistent with the intent and purpose hereunder. Except with respect to grants of easements or other instruments in favor of public utilities or governmental authorities which shall be in the form normally and customarily used by such public utilities or governmental authorities, as applicable, if any grant of easement made by Grantor under this reservation is substantially and materially different than the form attached as Exhibit B or Exhibit C, respectively, then prior to exercising Grantor's reserved right to grant such non-conforming easements or other rights, Grantor must first obtain the prior written consent of the owner of the Property, which consent shall not be unreasonably withheld, conditioned or delayed. Once such a road widening setback described in paragraph 2.c (Kunia Road Widening Setback) is designated in the Office of the Assistant Registrar of the Land Court of the State of Hawaii, in addition to the foregoing reserved rights, Grantor hereby reserves unto itself, unto its successors and assigns the right to subdivide the road widening setback from the remainder of the Property and Grantees, on behalf of themselves, their respective heirs, devisees, personal representatives, successors, successors in trust and assigns, do hereby agree to cooperate with Grantor, its successors and assigns and with applicable governmental authorities in order to subdivide the road widening setback from the remainder of the Property and to thereafter dedicate the same in fee simple to applicable governmental authorities once such road widening improvements are completed.

easement shall be substantially in the form attached hereto as **Exhibit E** attached hereto and incorporated herein by this reference. If Grantor requires that the form of grant of easement made by Grantor under this reservation be substantially and materially different than the form attached as **Exhibit E**, then prior to exercising Grantor's reserved right to grant such non-conforming easements or other rights, Grantor must first obtain the prior written consent of the owner of the Property, which consent shall not be unreasonably withheld, conditioned or delayed.

i. **No Joinder or Consent.** Grantor, its successors and assigns may exercise all of the rights reserved under this paragraph 2 (Reservation of Access, Utility and Other Rights) without the consent or joinder of any other person.

3. **Release of Terms and Conditions.** Grantor, its successors and assigns, shall have the unilateral right, in their respective sole discretion, to release all or a portion of the reservations, terms, covenants and conditions set forth in paragraph 1 (Drainage), and paragraph 2 (Reservation of Access, Utility and Other Rights). In addition, and not in limitation of the foregoing, if at any time in the future Grantor no longer requires the reservations in paragraph 2 (Reservation of Access, Utility and Other Rights), Grantor agrees to either release such reservations, terms, covenants and conditions or assign all of Grantor's remaining rights under such reservations, terms, covenants and conditions to the owner(s) of the lot(s) affected by such reservations, terms, covenants and conditions.

4. **Property in "As Is, Where Is" Condition.**

a. **No Warranties.** It is expressly understood and agreed that Grantor has not made any representation or warranty, express or implied, regarding any aspect of the Property including, but not limited to, the implied warranties of merchantability, fitness for a particular purpose, suitability, habitability, quality, physical condition and value, and Grantor hereby disclaims any and all liability for any and all such representations and warranties. Grantees expressly acknowledge and agree that the existing fence lines at the Property may not be located on the legal boundaries of the Property, and that Grantor makes no representations or warranties regarding the existence or non-existence of encroachments, if any, into the Property or out of the Property onto adjacent lands. Grantees agree that they have examined and investigated the Property prior to the execution of this instrument and that Grantees have relied solely upon such examinations and investigations in acquiring the Property. Without limiting the generality of the foregoing, Grantees acknowledge that (i) they have made all inspections, investigations and analyses deemed necessary or appropriate to determine compliance by the Property with all environmental or other applicable laws that may apply to the Property, and (ii) Grantor has made no representation or warranty, express or implied, concerning the Property's compliance with environmental or other applicable laws.

b. **"As Is" Condition.** Grantees acknowledge and agree that they are acquiring the Property in its "as is, where is" condition, with all faults, if any, and that Grantees have assumed all risks regarding all aspects of the Property, and the condition thereof, including, without limitation: (i) the risk of any physical condition affecting the Property including, without limitation, the existence of any soils conditions, or the existence of archeological or historical conditions on the Property; (ii) the risk of any damage or loss to the Property caused by any means including, without limitation, flood or earthquake; and (iii) the risk of use, zoning,

habitability, merchantability or quality of the Property or the suitability of the Property for its present use or future development; and (iv) the activities of Grantor and others on adjacent or other nearby lands.

c. Mutual Release. Grantees expressly release Grantor, its successors and assigns, from any and all liability and claims that Grantees, their respective heirs, devisees, personal representatives, successors, successors in trust and assigns may have against Grantor, its successors and assigns with regard to: (i) known hazardous materials existing on the Property on or before the Conveyance Date (as defined in paragraph 4.g (Conveyance Date)) of which Grantees are actually aware, and (ii) hazardous materials released, leaked, spilled, overflow, discharged or emitted on or from the Property at any time from and after the Conveyance Date, or otherwise resulting from occupancy or operation of the Property by Grantees or by Grantees' agents. Grantees agree to incorporate such release of Grantor, its successors and assigns in all subsequent conveyances of all or a portion of the Property. Grantor expressly releases Grantees from any and all liability and claims that Grantor may have against Grantees, their respective heirs, devisees, personal representatives, successors, successors in trust and assigns with regard to any unknown hazardous materials existing on the Property on or before the Conveyance Date of which Grantees are unaware.

d. Indemnity. Grantees shall indemnify (defined below) Grantor, its successors and assigns from and against any and all claims and demands for loss or damage, including claims for personal injury, property damage or wrongful death, arising at any time on or after the Conveyance Date, as a direct or indirect result of or in connection with hazardous materials caused or permitted by Grantees or by Grantees' agents at any time on or after the Conveyance Date to be released, leaked, spilled, overflow, discharged or emitted on or from the Property, or otherwise resulting from occupancy or operation of the Property by Grantees or by Grantees' agents. Grantees' Indemnity contained in this paragraph 4.d (Indemnity) shall not be construed to apply to clean up of, or any consequential damages related to any contamination resulting from or attributable to: (i) any known or unknown hazardous materials existing on the Property on or before the Conveyance Date; or (ii) any hazardous materials migrating, entering or leaching onto, above, or beneath the Property at any time from and after the Conveyance Date from any adjoining or nearby land over which Grantees have no control or in which Grantees have no ownership interest. Grantees shall bear the burden of proof of establishing that the conditions set forth in the immediately preceding sentence apply, so as to relieve Grantees of its Indemnity obligations under this paragraph 4.d (Indemnity). As the context requires, as used in this instrument, the term "Indemnify" means the protection of a party, by a money payment if necessary, against out-of-pocket loss. The term shall include an obligation by the indemnitor to defend and hold the indemnitee harmless (with counsel reasonably acceptable to the indemnitee) in connection with any claim against which the Indemnity operates. The obligation to Indemnify shall specifically include, but shall not be limited to payment of (or in the alternative, reimbursement of) all costs and expenses paid by the indemnitee or reasonably anticipated to be incurred by the indemnitee for the indemnitee's defense, including without limitation, reasonable attorneys' fees and costs, and all other consultants' reasonable fees and costs. An Indemnity shall also specifically include all costs for research regarding settlement or other preventive measures undertaken by the indemnitee with regard to any such claim.

e. Adjacent Land Use. Grantees acknowledge and agree for themselves, their permitted assigns, transferees, and any other party claiming by, through or under it that: (i) Grantor has entered and may further enter into agreements with others for development and use of other lands owned by or formerly owned by Grantor located adjacent to or near the Property; (ii) such agricultural, developmental, commercial and other activities may involve by way of example and not in limitation thereof, noise, smoke, soot, dust, lights, noxious vapors, odors, and other nuisances of every description arising from or incidental to the activities conducted from time to time on adjacent or other nearby lands, subject only to zoning and other legal restrictions on use; and (iii) Grantees are acquiring the Property subject to all risks associated with the location of the Property. The foregoing shall not prevent Grantees from pursuing all remedies legally available to Grantees in the event of any violation of zoning or other legal restrictions on use.

f. Government Approvals. Grantees acknowledge that Grantor has made and makes no representations regarding Grantees' ability to obtain or retain the zoning, governmental approvals or permits necessary to use, occupancy or further development of the Property.

g. Conveyance Date. As used herein, the term "Conveyance Date" means the date that this instrument is filed in the Office of the Assistant Registrar of the Land Court of the State of Hawaii.

5. Attorneys' Fees. In the event of a dispute under this instrument, the prevailing party shall be entitled to recover from the losing party all costs including reasonable attorneys' fees.

The Benefited Property is all of the land covered by Certificate of Title No. _____ issued to _____. Parking of vehicles within the easement area is prohibited. The parties acknowledge that the easement area connects a portion of the Benefited Property with Kunia Road. Grantee shall use the easement area solely for vehicular and pedestrian access to and from Kunia Road (a public highway) and for waterline and other utility purposes, which easement rights shall be appurtenant to the Benefited Property. Grantee shall have the right, but not the obligation, to construct, reconstruct, install, reinstall, use, operate, repair and maintain within the easement area such private roadway or utility improvements as Grantee determines may be required to provide ingress and egress, access to and water and other utility service to the Benefited Property, as Grantee from time to time deems necessary or appropriate, and for no other purposes. If Grantee installs overhead utilities within the easement area, Grantor shall have the right to require that Grantee underground such utilities, if at the time of the request, underground utilities are then being installed or planned to be installed as a matter of practice in the area.

2. Coordination of Uses. Grantee acknowledges that Grantor, the owner of the land through which the easement area crosses, and other persons have rights to use the easement area and that other persons may have rights to use the easement area in the future. Grantee agrees to coordinate its use of the easement area with any other person having the right to use the easement area.

3. Maintenance.

a. Grantee's Obligations. If Grantee constructs any new private roadway or utility improvements within the easement area at Grantee's own cost for Grantee's own use, then, Grantee shall, at Grantee's own expense, keep all such new private roadway or utility improvements in good order, condition, maintenance and repair, reasonable wear and tear from normal usage or damage by casualty excepted. Grantee shall at all times exercise reasonable precaution against damaging the property adjoining the easement area and shall immediately repair any such damaged property.

b. Grantor's Obligations. Grantor shall have no obligation to maintain or repair the easement area or any improvements located within the easement area or appurtenant thereto.

c. Owner's Responsibility. Except as set forth in paragraph 3.a (Grantee's Obligations), the owner of the land through which the easement area crosses shall at such owner's own expense, keep all private roadway or utility improvements within the easement area in good order, condition, maintenance and repair, reasonable wear and tear from normal usage or damage by casualty excepted.

d. No Responsibility for Other Party. Grantor, Grantee and the owner of the land through which the easement area crosses shall each not be responsible to repair any damage to the easement area or improvements located therein caused by the other party.

4. Observance of Laws and Other Requirements. Grantee shall at all times during the term of this grant of easement: (a) observe, perform and comply with all Applicable Laws now or hereafter made with respect to Grantee's use of the easement area; (b) maintain in effect all permits, approvals, licenses, consents or other entitlements, if any, required by Applicable Laws for Grantee's permitted use of the easement area hereunder; and (c) keep the easement area in a safe and nuisance free condition, to the extent the same is consistent with Grantee's use of the easement area. Any failure by Grantee to maintain Grantee's own private roadway or utility improvements as required by paragraph 3.a (Maintenance - Grantee's Obligations) or to comply with the requirements set forth in clauses (a) through (c) of the immediately preceding sentence shall be an event of default under this grant of easement, and Grantor shall have the right to exercise all remedies which Grantor may have hereunder, at law or in equity. Grantee shall indemnify (defined in paragraph 8 (Indemnity)) Grantor and the owner of the land through which the easement area crosses against all actions, suits, claims and damages by whomsoever brought or made by reason of the nonobservance or nonperformance by Grantee as required hereunder of the requirements of: (i) all Applicable Laws, (ii) permits, approvals, licenses, consents or other entitlements, if any, for Grantee's use of the easement area, and (iii) this paragraph 4 (Observance of Laws and Other Requirements). As used herein the term "Applicable Laws" means all federal, state and local laws, statutes, ordinances, codes, rules, regulations, standards, directives, interpretations and conditions of approval, and all legislative, administrative or judicial orders, decrees, requirements, rulings or judgments, which now or in the future may be applicable to the land through which the easement area crosses, or to the use of the same.

5. Condition of Easement Area. Grantee accepts the easement area in its "as is, where is" condition and acknowledge that Grantor has made no representations concerning the condition of the easement area or the suitability or fitness of the easement area for any particular use or purpose. Grantee also acknowledges that the improvements, if any, including by way of example and not in limitation thereof, the private roadway or utility improvements, within the easement area are or may be nonconforming under Applicable Laws. Grantee assumes all risks arising from any nonconforming improvements within the easement area.

6. Construction of Improvements. No private roadway or utility improvements and no other improvements may be constructed on or adjacent to the easement area without the prior written consent of the owner of the land through which the easement area crosses, which consent shall not be unreasonably withheld or delayed, but shall be conditioned upon compliance with the reasonable needs of the fee simple owner of the land through which the easement area crosses.

7. Limitation of Liability. Grantor and the owner of the land through which the easement area crosses shall each not be liable or responsible for any loss or damage sustained by Grantee or anyone claiming by, through or under Grantee because of any act or omission of any lessee, tenant, licensee or other occupant of the surrounding lands of Grantor, the owner of the land through which the easement area crosses, or of any other person.

8. Indemnity. Grantee shall indemnify Grantor and the owner of the land through which the easement area crosses from and against any and all actions, suits, losses, costs, damages, liabilities or claims thereof ("Claims"), including reasonable attorneys' fees, arising out of or in connection with any loss or damage to property and/or injury to or death of persons arising out of or resulting from the acts or omissions of Grantee or anyone claiming by, through or under Grantee in connection with the exercise of the rights or privileges granted hereunder, or arising out of or in connection with any private roadway or utility improvements within the easement area; provided, however that nothing herein shall be deemed to require Grantee to indemnify Grantor or the owner of the land through which the easement area crosses for any Claim, to the extent such Claim was caused solely by Grantor's own acts or omissions or such owner's own acts or omissions. Grantee's obligations to indemnify Grantor and the owner of the land through which the easement area crosses under this paragraph 8 (Indemnity), under paragraph 4 (Observance of Laws and Other Requirements) and under paragraph 9 (No Liens) shall survive the termination of this grant of easement and shall be binding upon Grantee, its successors and assigns. As used herein, the term "indemnify" means the protection of a party, by a money payment if necessary, against reasonable out-of-pocket loss. The term shall include an obligation by the indemnitor to defend and hold the indemnitee harmless (with counsel reasonably acceptable to the indemnitee) in connection with any claim against which the indemnity operates. The obligation to indemnify shall specifically include, but shall not be limited to, payment of all reasonable costs and expenses paid by the indemnitee or reasonably anticipated to be incurred by the indemnitee for the indemnitee's defense, including without limitation, reasonable attorneys' fees and costs, and all other consultants' reasonable fees and costs. An indemnity shall also specifically include all reasonable costs for research regarding settlement or other preventive measures undertaken by the indemnitee with regard to any such claim.

9. No Liens. Grantee shall not commit or suffer any act or neglect whereby the easement area becomes subject to any attachment, judgment, lien, charge or encumbrance whatsoever, and shall indemnify Grantor and the owner of the land through which the easement area crosses from and against any and all loss, liability, claim or demand for damage or injury with respect thereto.

10. Assignment. Grantee shall not assign any right hereby granted without the prior written consent of Grantor and the owner of the land through which the easement area crosses, which consents may not be unreasonably withheld, conditioned or delayed, and any purported assignment or transfer without such consent shall be void. Grantor, may, from time to time, assign all or a portion of Grantor's rights under this grant of easement to the owner of the land through which the easement area crosses, without notice, joinder or consent of Grantee or any other person.

11. Cooperation. Grantee agrees to cooperate, join in and/or consent to Grantor's exercise of its reserved rights under paragraph 19 (Grantor's Reservations) if so requested by Grantor, which cooperation, joinder(s) or consent(s) shall not be unreasonably

withheld, conditioned or delayed. Grantee agrees to cooperate, join in and/or consent to such documentation as is reasonably necessary for Grantor to fulfill Grantor's obligations under paragraph 20 (Designation of Land Court Easement).

12. Abandonment, Termination or Relocation. In the event Grantee abandons the use of the easement area or the easement area remains unused by Grantee for a continuous period of one (1) year, this grant of easement shall automatically terminate, and Grantee shall, at Grantor's request, or the request of the owner of the land through which the easement area crosses, at any time after such abandonment, or at any time after a termination of this grant of easement under paragraph 14 (Default and Remedies), execute such documents as Grantor reasonably requests for the purpose of terminating this grant of easement. As used herein, the term "abandon" means that Grantee, through action or inaction, shows an intent to no longer use the easement area or portion thereof for the purposes for which this grant of easement is given, and upon written request by Grantor or the owner of the land through which the easement area crosses to Grantee requesting confirmation of continued use of the easement area, Grantee fails to respond in writing within a reasonable period of time not to exceed forty-five (45) days, Grantee shall be deemed to have abandoned the applicable portion of the easement area. Grantee hereby agrees that on or before the termination or cancellation of this grant of easement, or within a reasonable period following such termination or cancellation, if requested by both Grantor and the owner of the land through which the easement area crosses, Grantee will remove its own private roadway or utility improvements from the easement area and will restore the easement area to the condition existing at the time of entry thereon, reasonable and ordinary wear and tear and damages by the elements or by circumstances over which Grantee has no control excepted.

13. Condemnation. If the easement area is taken or condemned in whole or part by any authority having the power of eminent domain, all compensation and damages awarded on account of the condemnation or taking shall be payable to the owner of the land through which the easement area crosses, without any apportionment to Grantee, except that Grantee may claim and recover from the condemning authority full compensation for any severance or other damages, including the cost of obtaining and relocating to a substitute easement area or right of way.

14. Default and Remedies. If a party fails to perform any of the terms, covenants and agreements contained herein, if such failure continues for a period of thirty (30) days after written notice, then the non-defaulting party shall be entitled to all remedies available to it at law or equity, including by way of example and not in limitation thereof, the right to sue such person for specific performance, injunctive relief and/or monetary damages, including without limitation, reasonable attorneys' fees, costs and expenses. Grantor shall have the right to terminate this grant of easement for a material breach by Grantee of the terms and conditions hereof, or a continuing material default of Grantee's performance of the terms and conditions of this grant of easement, if a court of competent jurisdiction determines that such termination is appropriate in the circumstances giving rise to Grantor's exercise of its rights and remedies at law or equity, and such court determines that other remedies are inadequate under such circumstances.

15. Rights to Cure. If Grantor, Grantee or the owner of the land through which the easement area crosses fails to observe or perform any of the terms, covenants or conditions contained in this grant of easement on the part of such party to be observed and performed (including both monetary and non-monetary obligations), or fails to observe or

perform any of its obligation(s) hereunder within the time period specified herein for observance or performance, and fails to cure such nonobservance or nonperformance within any cure period (if applicable), without limiting any other remedy which may be available to the party seeking performance at law or in equity, the party seeking performance shall have the right (but not the obligation) to wholly or partially perform such covenant or obligation on behalf of the non-performing party after giving a second written notice demanding performance within a reasonable period of time, and indicating that the party seeking performance intends to exercise its rights of self-help under this paragraph 15 (Rights to Cure), at the cost and expense of the non-performing party if such performance does not occur within such reasonable period of time. If such performance does not occur within such specified time period, the party seeking performance may enter onto the easement area and undertake such actions as the party seeking performance deems appropriate under the circumstances and with the facts known to such party at that time. If Grantor, Grantee or the owner of the land through which the easement area crosses exercise their respective rights under this paragraph 15 (Rights to Cure), then the non-performing party shall promptly reimburse the party seeking performance for any and all reasonable costs and expenses incurred by the party seeking performance in connection with such action, including without limitation, all reasonable consultants', experts' and attorneys' fees and costs, plus interest thereon at a rate equal to twelve (12%) per annum (but in no event more than the maximum per annum rate of interest permitted to be charged by then Applicable Laws) accruing from the date such costs or expenses are incurred under this paragraph 15 (Rights to Cure), until actually paid in full.

16. Expenses of Enforcement. If any of Grantor, Grantee or the owner of the land through which the easement area crosses brings any legal proceeding to enforce any of the terms, covenants or conditions hereof, the unsuccessful party in such proceeding shall pay the prevailing party's costs and expenses, including reasonable attorneys' fees, incurred in the bringing or defending of such proceeding.

17. Remedies Cumulative. The remedies set forth herein shall be in addition to remedies otherwise applicable or provided herein or otherwise available at law or in equity, it being understood that all rights and remedies shall always be non-exclusive and cumulative and that the exercise of one remedy or form of relief available hereunder shall not be exclusive of, or constitute a waiver of, any other.

18. No Waiver. The failure in any case to enforce the provisions of any covenant, condition, restriction, obligation or charge of this grant of easement shall not constitute a waiver of any right to enforce any such provision of this grant of easement in any other case.

19. Grantor's Reservations. Any other provision herein notwithstanding, and in addition to any other reservations set forth in this grant of easement, this grant of easement is subject to the reservation unto Grantor, its successors and assigns, of the following rights, to which Grantee hereby consents: (a) the right to utilize or to permit others to utilize the easement area, and (b) the right to make one or more irrevocable, nonexclusive grants or assignments of nonexclusive rights in the easement area from time to time to governmental authorities, public or private utilities or others.

20. Owner's Rights. Any other provision herein notwithstanding, nothing in this grant of easement shall be interpreted or otherwise deemed to prevent the owner of the land through which the easement area crosses from using or permitting others to use the

easement area, or from making one or more irrevocable, nonexclusive grants or assignments of nonexclusive rights in the easement area from time to time to governmental authorities, public or private utilities or others.

21. Designation of Land Court Easement. Grantor shall seek subdivision approval for the easement area from the Department of Planning and Permitting of the City and County of Honolulu, and designation of the easement area in the Office of the Assistant Registrar of the Land Court of the State of Hawaii. Upon such designation of the easement area, Grantor and Grantee shall amend and restate this grant of easement in its entirety to incorporate herein the new legal description of the easement area. Grantee shall reimburse Grantor for one-half of the cost to obtain such governmental approvals to create such Land Court designated easement, and the cost to amend and restate this grant of easement, as and when invoiced by Grantor. Grantor and Grantee shall indemnify, defend, and hold harmless the owner of the land through which the easement area crosses from and against any and all claims arising in connection with the terms and conditions of subdivision approval for subdivision of the easement area or designation of the easement area.

22. Multiple Grantees. If there are more than one grantee under this grant of easement, then all such persons shall be jointly and severally bound by the Grantee's covenants in this grant of easement and any notice given to any one person by Grantor or by the owner of the land through which the easement area crosses shall be deemed to be notice upon all such persons.

23. Binding Effect. This instrument shall be binding upon and shall inure to the benefit of Grantor, Grantee and the owner of the land through which the easement area crosses, and their respective heirs, devisees, personal representatives, successors, and assigns.

24. Counterparts. The parties hereto agree that this instrument may be executed in counterparts, each of which shall be deemed an original, and said counterparts shall together constitute one and the same agreement, binding all of the parties hereto, notwithstanding that all of the parties are not signatory to the original or the same counterparts.

THIS INDENTURE, made this _____ day of _____, 20____, by and between **JAMES CAMPBELL COMPANY LLC**, a Delaware limited liability company ("Grantor"), whose address is the James Campbell Building, 1001 Kamokila Boulevard, Kapolei, Hawaii 96707, and _____ (the "Grantee"), whose address is _____;

RECITALS:

WHEREAS, Grantee has requested an easement for access and utility purposes across Grantor's lands;

WHEREAS, Grantor and Grantee have reached agreement on the terms and conditions under which Grantor has agreed to permit Grantee to use the easement area described herein for access purposes only, and the parties desire to document such agreements;

AGREEMENT:

NOW THEREFORE, for and in consideration of the sum of ONE AND NO/100 DOLLARS (\$1.00) paid to them by Grantee, receipt whereof is hereby acknowledged, and of the terms, covenants and conditions hereinafter contained and on the part of Grantee to be observed and performed, and pursuant to Grantor's reserved rights set forth in that certain Limited Warranty Deed With Covenants and Reservation of Rights dated _____, 2008 filed in the Office of the Assistant Registrar of the Land Court of the State of Hawaii as Document No. _____, and noted on Certificate of Title No. _____, issued to [INSERT NAME OF FEE SIMPLE OWNER], Grantor does hereby grant unto Grantee the right, in the nature of a nonexclusive easement over the easement area described below (the "easement area"), to be exercised and enjoyed by Grantee solely for vehicular and pedestrian access, which right shall be appurtenant to the Benefited Property (defined below), which easement area is located in the approximate location graphically shown on Exhibit A attached hereto and incorporated herein by this reference. The easement area is located within the land described in Exhibit B attached hereto and incorporated herein by this reference.

TO HAVE AND TO HOLD the same unto Grantee, its lessees, tenants, licensees and other occupants, forever.

SUBJECT, HOWEVER, to any and all existing recorded uses, licenses, easements and other encumbrances of record that are noted on the Certificate of Title referred to above; and

In consideration of the rights hereby granted, the acceptance thereof and the obligations hereby assumed, Grantor and Grantee hereby covenant and agree as follows:

1. Use of Easement Area. Grantee shall use the easement area solely for ingress and egress to and from Grantee's land described as Lot ____ (Map ____) of Land Court Application No. 1095 of the Trustees under the Will and of the Estate of James Campbell, Deceased, said land being commonly known as Tax Map Key Nos. (Oahu)

_____ located off of Kunia Road containing approximately _____ acres of land, more or less (the "Benefited Property"), which use shall be for vehicular and pedestrian ingress and egress to and from the Benefited Property, and Grantee shall exercise the rights granted to Grantee hereunder in a manner so as not to interfere unreasonably with the land through which the easement area crosses. The Benefited Property is all of the land covered by Certificate of Title No. _____ issued to _____. Parking of vehicles within the easement area is prohibited.

2. Coordination of Uses. Grantee acknowledges that Grantor and other persons have rights to use the easement area and that other persons may have rights to use the easement area in the future. Grantee agrees to coordinate Grantee's use of the easement area with any other person having the right to use the easement area.

3. Maintenance. The Grantee shall at Grantee's own expense, keep all private roadway or utility improvements within the easement area in good order, condition, maintenance and repair, reasonable wear and tear from normal usage or damage by casualty excepted. Neither Grantor nor the owner of the land through which the easement area crosses shall have any obligation for such maintenance.

4. Observance of Laws and Other Requirements. Grantee shall at all times during the term of this grant of easement: (a) observe, perform and comply with all Applicable Laws now or hereafter made with respect to Grantee's use of the easement area; (b) maintain in effect all permits, approvals, licenses, consents or other entitlements, if any, required by Applicable Laws for Grantee's permitted use of the easement area hereunder; and (c) keep the easement area in a safe and nuisance free condition, to the extent the same is consistent with Grantee's use of the easement area. Any failure by Grantee to maintain the easement area or to comply with the requirements set forth in clauses (a) through (c) of the immediately preceding sentence shall be an event of default under this grant of easement, and Grantor shall have the right to exercise all remedies which Grantor may have hereunder, at law or in equity. Grantee shall indemnify (defined in paragraph 8 (Indemnity)) Grantor and the owner of the land through which the easement area crosses against all actions, suits, claims and damages by whomsoever brought or made by reason of the nonobservance or nonperformance by Grantee as required hereunder of the requirements of: (i) all Applicable Laws, (ii) permits, approvals, licenses, consents or other entitlements, if any, for Grantee's use of the easement area, and (iii) this paragraph 4 (Observance of Laws and Other Requirements). As used herein the term "Applicable Laws" means all federal, state and local laws, statutes, ordinances, codes, rules, regulations, standards, directives, interpretations and conditions of approval, and all legislative, administrative or judicial orders, decrees, requirements, rulings or judgments, which now or in the future may be applicable to the land through which the easement area crosses, or to the use of the same.

5. Condition of Easement Area. Grantee accepts the easement area in its "as is, where is" condition and acknowledge that Grantor has made no representations concerning the condition of the easement area or the suitability or fitness of the easement area for any particular use or purpose. Grantee also acknowledges that the improvements, if any, within the easement area are or may be nonconforming under Applicable Laws. Grantee assumes all risks arising from any nonconforming improvements within the easement area.

6. Construction of Improvements. No improvements may be constructed on or adjacent to the easement area without the prior written consent of the owner of the land

through which the easement area crosses, which consent shall not be unreasonably withheld or delayed, but shall be conditioned upon compliance with the reasonable needs of the fee simple owner of the land through which the easement area crosses.

7. Limitation of Liability. Grantor and the owner of the land through which the easement area crosses shall each not be liable or responsible for any loss or damage sustained by Grantee or anyone claiming by, through or under Grantee because of any act or omission of any lessee, tenant, licensee or other occupant of the surrounding lands of Grantor, the owner of the land through which the easement area crosses, or of any other person.

8. Indemnity. Grantee shall indemnify Grantor and the owner of the land through which the easement area crosses from and against any and all actions, suits, losses, costs, damages, liabilities or claims thereof ("Claims"), including reasonable attorneys' fees, arising out of or in connection with any loss or damage to property and/or injury to or death of persons arising out of or resulting from the acts or omissions of Grantee or anyone claiming by, through or under Grantee in connection with the exercise of the rights or privileges granted hereunder, or arising out of or in connection with any improvements within the easement area made by Grantee; provided, however that nothing herein shall be deemed to require Grantee to indemnify Grantor or the owner of the land through which the easement area crosses for any Claim, to the extent such Claim was caused solely by Grantor's own acts or omissions or such owner's own acts or omissions. Grantee's obligations to indemnify Grantor and the owner of the land through which the easement area crosses under this paragraph 8 (Indemnity), under paragraph 4 (Observance of Laws and Other Requirements) and under paragraph 9 (No Liens) shall survive the termination of this grant of easement and shall be binding upon Grantee, its successors and assigns. As used herein, the term "Indemnify" means the protection of a party, by a money payment if necessary, against reasonable out-of-pocket loss. The term shall include an obligation by the Indemnitor to defend and hold the Indemnitee harmless (with counsel reasonably acceptable to the Indemnitee) in connection with any claim against which the Indemnity operates. The obligation to Indemnify shall specifically include, but shall not be limited to, payment of all reasonable costs and expenses paid by the Indemnitee or reasonably anticipated to be incurred by the Indemnitee for the Indemnitee's defense, including without limitation, reasonable attorneys' fees and costs, and all other consultants' reasonable fees and costs. An Indemnity shall also specifically include all reasonable costs for research regarding settlement or other preventive measures undertaken by the Indemnitee with regard to any such claim.

9. No Liens. Grantee shall not commit or suffer any act or neglect whereby the easement area becomes subject to any attachment, judgment, lien, charge or encumbrance whatsoever, and shall indemnify Grantor and the owner of the land through which the easement area crosses from and against any and all loss, liability, claim or demand for damage or injury with respect thereto.

10. Assignment. Grantee shall not assign any right hereby granted without the prior written consent of Grantor and the owner of the land through which the easement area crosses, which consents may not be unreasonably withheld, conditioned or delayed, and any purported assignment or transfer without such consent shall be void; provided, however that notwithstanding the foregoing, Grantor agrees to consent to an assignment of this grant of easement if such assignment is made in conjunction with a conveyance of Grantee's fee simple interest in and to all of the Benefited Property. It is the intent of the

parties that Grantee's rights and obligations under this grant of easement shall at all times be appurtenant to Grantee's fee simple ownership of the Benefited Property, and shall not be separated from such interest. Grantor, may, from time to time, assign all or a portion of Grantor's rights under this grant of easement to the owner of the land through which the easement area crosses, without notice, joinder or consent of Grantee or any other person.

11. Cooperation. Grantee agrees to cooperate, join in and/or consent to Grantor's exercise of its reserved rights under paragraph 19 (Grantor's Reservations) if so requested by Grantor, which cooperation, joinder(s) or consent(s) shall not be unreasonably withheld, conditioned or delayed. Grantee agrees to cooperate, join in and/or consent to such documentation as is reasonably necessary for Grantor to fulfill Grantor's obligations under paragraph 20 (Designation of Land Court Easement).

12. Abandonment, Termination or Relocation. In the event Grantee abandons the use of the easement area or the easement area remains unused by Grantee for a continuous period of one (1) year, this grant of easement shall automatically terminate, and Grantee shall, at Grantor's request, or the request of the owner of the land through which the easement area crosses, at any time after such abandonment, or at any time after a termination of this grant of easement under paragraph 14 (Default and Remedies), execute such documents as Grantor reasonably requests for the purpose of terminating this grant of easement. As used herein, the term "abandon" means that Grantee, through action or inaction, shows an intent to no longer use the easement area or portion thereof for the purposes for which this grant of easement is given, and upon written request by Grantor or the owner of the land through which the easement area crosses to Grantee requesting confirmation of continued use of the easement area, Grantee fails to respond in writing within a reasonable period of time not to exceed forty-five (45) days, Grantee shall be deemed to have abandoned the applicable portion of the easement area. Grantee hereby agrees that on or before the termination or cancellation of this grant of easement, or within a reasonable period following such termination or cancellation, if requested by both Grantor and the owner of the land through which the easement area crosses, Grantee will remove its own improvements, if any, from the easement area and will restore the easement area to the condition existing at the time of entry thereon, reasonable and ordinary wear and tear and damages by the elements or by circumstances over which Grantee has no control excepted.

13. Condemnation. If the easement area is taken or condemned in whole or part by any authority having the power of eminent domain, all compensation and damages awarded on account of the condemnation or taking shall be payable to the owner of the land through which the easement area crosses, without any apportionment to Grantee, except that Grantee may claim and recover from the condemning authority full compensation for any severance or other damages, including the cost of obtaining and relocating to a substitute easement area or right of way.

14. Default and Remedies. If a party fails to perform any of the terms, covenants and agreements contained herein, if such failure continues for a period of thirty (30) days after written notice, then the non-defaulting party shall be entitled to all remedies available to it at law or equity, including by way of example and not in limitation thereof, the right to sue such person for specific performance, injunctive relief and/or monetary damages, including without limitation, reasonable attorneys' fees, costs and expenses. Grantor shall have the right to terminate this grant of easement for a material breach by Grantee of the terms and conditions hereof, or a continuing material default of Grantee's performance of the terms and conditions of this grant of easement, if a court of competent jurisdiction determines

that such termination is appropriate in the circumstances giving rise to Grantor's exercise of its rights and remedies at law or equity, and such court determines that other remedies are inadequate under such circumstances.

15. Rights to Cure. If Grantor, Grantee or the owner of the land through which the easement area crosses fails to observe or perform any of the terms, covenants or conditions contained in this grant of easement on the part of such party to be observed and performed (including both monetary and non-monetary obligations), or fails to observe or perform any of its obligation(s) hereunder within the time period specified herein for observance or performance, and fails to cure such nonobservance or nonperformance within any cure period (if applicable), without limiting any other remedy which may be available to the party seeking performance at law or in equity, the party seeking performance shall have the right (but not the obligation) to wholly or partially perform such covenant or obligation on behalf of the non-performing party after giving a second written notice demanding performance within a reasonable period of time, and indicating that the party seeking performance intends to exercise its rights of self-help under this paragraph 15 (Rights to Cure), at the cost and expense of the non-performing party if such performance does not occur within such reasonable period of time. If such performance does not occur within such specified time period, the party seeking performance may enter onto the easement area and undertake such actions as the party seeking performance deems appropriate under the circumstances and with the facts known to such party at that time. If Grantor, Grantee or the owner of the land through which the easement area crosses exercise their respective rights under this paragraph 15 (Rights to Cure), then the non-performing party shall promptly reimburse the party seeking performance for any and all reasonable costs and expenses incurred by the party seeking performance in connection with such action, including without limitation, all reasonable consultants', experts' and attorneys' fees and costs, plus interest thereon at a rate equal to twelve (12%) per annum (but in no event more than the maximum per annum rate of interest permitted to be charged by then Applicable Laws) accruing from the date such costs or expenses are incurred under this paragraph 15 (Rights to Cure), until actually paid in full.

16. Expenses of Enforcement. If any of Grantor, Grantee or the owner of the land through which the easement area crosses brings any legal proceeding to enforce any of the terms, covenants or conditions hereof, the unsuccessful party in such proceeding shall pay the prevailing party's costs and expenses, including reasonable attorneys' fees, incurred in the bringing or defending of such proceeding.

17. Remedies Cumulative. The remedies set forth herein shall be in addition to remedies otherwise applicable or provided herein or otherwise available at law or in equity, it being understood that all rights and remedies shall always be non-exclusive and cumulative and that the exercise of one remedy or form of relief available hereunder shall not be exclusive of, or constitute a waiver of, any other.

18. No Waiver. The failure in any case to enforce the provisions of any covenant, condition, restriction, obligation or charge of this grant of easement shall not constitute a waiver of any right to enforce any such provision of this grant of easement in any other case.

19. Grantor's Reservations. Any other provision herein notwithstanding, and in addition to any other reservations set forth in this grant of easement, this grant of easement is subject to the reservation unto Grantor, its successors and assigns, of the

following rights, to which Grantee hereby consents: (a) the right to utilize or to permit others to utilize the easement area, and (b) the right to make one or more irrevocable, nonexclusive grants or assignments of nonexclusive rights in the easement area from time to time to governmental authorities, public or private utilities or others.

20. Owner's Rights. Any other provision herein notwithstanding, nothing in this grant of easement shall be interpreted or otherwise deemed to prevent the owner of the land through which the easement area crosses from using or permitting others to use the easement area, or from making one or more irrevocable, nonexclusive grants or assignments of nonexclusive rights in the easement area from time to time to governmental authorities, public or private utilities or others.

21. Designation of Land Court Easement. Grantor shall seek subdivision approval for the easement area from the Department of Planning and Permitting of the City and County of Honolulu, and designation of the easement area in the Office of the Assistant Registrar of the Land Court of the State of Hawaii. Upon such designation of the easement area, Grantor and Grantee shall amend and restate this grant of easement in its entirety to incorporate herein the new legal description of the easement area. Grantee shall reimburse Grantor for one-half of the cost to obtain such governmental approvals to create such Land Court designated easement, and the cost to amend and restate this grant of easement, as and when invoiced by Grantor. Grantor and Grantee shall indemnify, defend, and hold harmless the owner of the land through which the easement area crosses from and against any and all claims arising in connection with the terms and conditions of subdivision approval for subdivision of the easement area or designation of the easement area.

22. Multiple Grantees. If there are more than one grantee under this grant of easement, then all such persons shall be jointly and severally bound by the Grantee's covenants in this grant of easement and any notice given to any one person by Grantor or by the owner of the land through which the easement area crosses shall be deemed to be notice upon all such persons.

23. Binding Effect. This instrument shall be binding upon and shall inure to the benefit of Grantor, Grantee and the owner of the land through which the easement area crosses, and their respective heirs, devisees, personal representatives, successors, and assigns.

24. Counterparts. The parties hereto agree that this instrument may be executed in counterparts, each of which shall be deemed an original, and said counterparts shall together constitute one and the same agreement, binding all of the parties hereto, notwithstanding that all of the parties are not signatory to the original or the same counterparts.

GRANT OF PRIVATE WATERLINE EASEMENT

THIS INDENTURE, made this _____ day of _____, 20____, by and between **JAMES CAMPBELL COMPANY LLC**, a Delaware limited liability company ("Grantor"), whose address is the James Campbell Building, 1001 Kamokila Boulevard, Kapolei, Hawaii 96707, and _____ (the "Grantee"), whose address is _____;

RECITALS:

WHEREAS, Grantee has requested an easement for private waterline purposes across land through which Grantor has reserved rights to grant such an easement;

WHEREAS, Grantor and Grantee have reached agreement on the terms and conditions under which Grantor has agreed to permit Grantee to use the easement area described herein for private waterline, sump, water pump, valve and other associated equipment purposes only, and the parties desire to document such agreements;

AGREEMENT:

NOW THEREFORE, for and in consideration of the sum of ONE AND NO/100 DOLLARS (\$1.00) paid to it by Grantee, receipt whereof is hereby acknowledged, and of the terms, covenants and conditions hereinafter contained and on the part of Grantee to be observed and performed, and pursuant to Grantor's reserved rights set forth in that certain Limited Warranty Deed with Covenants and Reservation of Rights dated _____, 20____ filed in the Office of the Assistant Registrar of the Land Court of the State of Hawaii as Document No. _____, and noted on Certificate of Title No. _____ (for Lot 882-A) issued to _____, Grantor does hereby grant unto Grantee the right, in the nature of a nonexclusive easement in common with the Grantor and others, to be exercised and enjoyed by the Grantee, to use, construct, install, maintain, operate, replace and remove an underground water pipeline or pipelines together with sumps, water pumps, valves, meters and such other associated equipment or appurtenances (collectively the "private water improvements") as Grantee deems necessary to properly measure and control water through the water pipeline(s) through those certain premises located off of Kunia Road, in the District of Ewa, City and County of Honolulu, Island of Oahu, State of Hawaii, which easement area ("easement area") is approximately twenty five (25) feet wide and graphically shown on Exhibit A attached hereto and incorporated herein by this reference. The easement area is located within the land described in Exhibit B attached hereto and incorporated herein by this reference.

TOGETHER with the right of ingress to and egress from the easement area for all purposes in connection with the rights hereby granted.

TO HAVE AND TO HOLD the same unto Grantee, its lessees, tenants, licensees and other occupants, forever.

SUBJECT, HOWEVER, to any and all existing recorded uses, licenses, easements and other encumbrances of record that are noted on the Certificate of Title referred to above; and

In consideration of the rights hereby granted, the acceptance thereof and the obligations hereby assumed, Grantor and Grantee hereby covenant and agree as follows:

1. Use of Easement Area. Grantee's use of the easement area will be solely to construct, install, maintain, operate, replace and remove the private water improvements within the easement area. Grantee shall have the right, but not the obligation, to construct, reconstruct, install, reinstall, use, operate, repair and maintain within the easement area such private water improvements as Grantee determines may from time to time be necessary or appropriate, and for no other purposes.

2. Coordination of Uses. Grantee acknowledges that: (a) Grantor and other persons have rights to use the easement area and that other persons may have rights to use the easement area in the future, and (b) the owner of the land through which the easement area crosses, and not Grantee, has the exclusive right to use the existing private water pipeline located within the easement area as of the date of this grant of easement. Grantee agrees to coordinate its use of the easement area with the owner of the land through which the easement area crosses and any other person having the right to use the easement area.

3. Restrictions on Additional Improvements. No subsurface building foundation and no building or structure of any kind (other than roads, curbs or other at grade improvements) may be built over the easement area, unless the same is first approved in writing by Grantee, and any such improvement must be constructed in such a manner so as not to interfere with the construction, maintenance, operation, repair and removal of or access to the private water improvements and the easement area. The foregoing restriction shall not prohibit the construction, operation, maintenance, repair or removal of another person's own water pipelines, conduits or drains below the surface of the easement area provided that such uses do not interfere with the exercise by Grantee of the rights herein granted. If it becomes necessary to excavate, grade or change the existing ground conditions within the easement area, the plans for such work shall first be submitted to Grantee for approval, which approval shall not be unreasonably withheld, conditioned or delayed.

4. Maintenance.

a. Grantee's Obligations. If Grantee constructs any private water improvements within the easement area at Grantee's own cost for Grantee's own use, then, Grantee shall, at Grantee's own expense, keep all such private water improvements in good order, condition, maintenance and repair, reasonable wear and tear from normal usage or damage by casualty excepted. Grantee shall at all times exercise reasonable precaution against damaging the property adjoining the easement area and shall immediately repair any such damaged property.

b. Grantor's Obligations. Grantor shall have no obligation to maintain or repair the easement area or any improvements located within the easement area or appurtenant thereto.

c. No Responsibility for Other Parties. Grantor, Grantee and the owner of the land through which the easement area crosses shall each not be responsible to repair any damage to the easement area or improvements located therein caused by any other party.

5. Observance of Laws and Other Requirements. Grantee shall at all times during the term of this grant of easement: (a) observe, perform and comply with all Applicable Laws now or hereafter made with respect to Grantee's use of the easement area; (b) maintain in effect all permits, approvals, licenses, consents or other entitlements, if any, required by Applicable Laws for Grantee's permitted use of the easement area hereunder; (c) keep the easement area in a safe and nuisance free condition, to the extent the same is consistent with Grantee's use of the easement area; and (d) not allow any leakage or water wastage. Any failure by Grantee to comply with the requirements set forth in clauses (a) through (d) of the immediately preceding sentence shall be an event of default under this grant of easement, and Grantor shall have the right to exercise all remedies which Grantor may have hereunder, at law or in equity. Grantee shall indemnify (defined in paragraph 9 (Indemnity)) Grantor and the owner of the land through which the easement area crosses against all actions, suits, claims and damages by whomsoever brought or made by reason of the nonobservance or nonperformance by Grantee as required hereunder of the requirements of: (i) all Applicable Laws, (ii) permits, approvals, licenses, consents or other entitlements, if any, for Grantee's use of the easement area, and (iii) this paragraph 5 (Observance of Laws and Other Requirements). As used herein the term "Applicable Laws" means all federal, state and local laws, statutes, ordinances, codes, rules, regulations, standards, directives, interpretations and conditions of approval, and all legislative, administrative or judicial orders, decrees, requirements, rulings or judgments, which now or in the future may be applicable to the land through which the easement area crosses, or to the use of the same.

6. Condition of Easement Area. Grantee accepts the easement area in its "as is, where is" condition and acknowledge that Grantor has made no representations concerning the condition of the easement area or the suitability or fitness of the easement area for any particular use or purpose. Grantee also acknowledges that the improvements, if any, within the easement area are or may be nonconforming under Applicable Laws. Grantee assumes all risks arising from any nonconforming improvements within the easement area.

7. Construction of Improvements. No private water improvements and no other improvements may be constructed on or adjacent to the easement area without the prior written consent of the owner of the land through which the easement area crosses, which consent shall not be unreasonably withheld or delayed, but shall be conditioned upon compliance with the reasonable needs of the fee simple owner of the land through which the easement area crosses, including by way of example and not in limitation thereof, that all underground water pipelines must be installed at a depth of no less than four (4) feet from the surface of the easement area.

8. Limitation of Liability. Grantor and the owner of the land through which the easement area crosses shall each not be liable or responsible for any loss or damage sustained by Grantee or anyone claiming by, through or under Grantee because of any act or omission of any lessee, tenant, licensee or other occupant of the surrounding lands of Grantor, the owner of the land through which the easement area crosses, or of any other person.

9. Indemnity. Grantee shall indemnify Grantor and the owner of the land through which the easement area crosses from and against any and all actions, suits, losses, costs, damages, liabilities or claims thereof ("Claims"), including reasonable attorneys' fees, arising out of or in connection with any loss or damage to property and/or injury to or death of

persons arising out of or resulting from the acts or omissions of Grantee or anyone claiming by, through or under Grantee in connection with the exercise of the rights or privileges granted hereunder, or arising out of or in connection with any private water improvements within the easement area; provided, however that nothing herein shall be deemed to require Grantee to indemnify Grantor or the owner of the land through which the easement area crosses for any Claim, to the extent such Claim was caused solely by Grantor's own acts or omissions or such owner's own acts or omissions. Grantee's obligations to indemnify Grantor and the owner of the land through which the easement area crosses under this paragraph 9 (Indemnity), under paragraph 5 (Observance of Laws and Other Requirements) and under paragraph 10 (No Liens) shall survive the termination of this grant of easement and shall be binding upon Grantee, its successors and assigns. As used herein, the term "Indemnify" means the protection of a party, by a money payment if necessary, against reasonable out-of-pocket loss. The term shall include an obligation by the indemnitor to defend and hold the indemnitee harmless (with counsel reasonably acceptable to the indemnitee) in connection with any claim against which the indemnity operates. The obligation to indemnify shall specifically include, but shall not be limited to, payment of all reasonable costs and expenses paid by the indemnitee or reasonably anticipated to be incurred by the indemnitee for the indemnitee's defense, including without limitation, reasonable attorneys' fees and costs, and all other consultants' reasonable fees and costs. An indemnity shall also specifically include all reasonable costs for research regarding settlement or other preventive measures undertaken by the indemnitee with regard to any such claim.

10. No Liens. Grantee shall not commit or suffer any act or neglect whereby the easement area becomes subject to any attachment, judgment, lien, charge or encumbrance whatsoever, and shall indemnify Grantor and the owner of the land through which the easement area crosses from and against any and all loss, liability, claim or demand for damage or injury with respect thereto.

11. Assignment. Grantee shall not assign any right hereby granted without the prior written consent of Grantor and the owner of the land through which the easement area crosses, which consents may not be unreasonably withheld, conditioned or delayed, and any purported assignment or transfer without such consent shall be void. Grantor, may, from time to time, assign all or a portion of Grantor's rights under this grant of easement to the owner of the land through which the easement area crosses, without notice, joinder or consent of Grantee or any other person.

12. Cooperation. Grantee agrees to cooperate, join in and/or consent to Grantor's exercise of its reserved rights under paragraph 21 (Grantor's Reservations) if so requested by Grantor, which cooperation, joinder(s) or consent(s) shall not be unreasonably withheld, conditioned or delayed. Grantee agrees to cooperate, join in and/or consent to such documentation as is reasonably necessary for Grantor to fulfill Grantor's obligations under paragraph 22 (Designation of Land Court Easement). Grantee also agrees to cooperate, join in and/or consent to the landowner's exercise of its reserved rights under paragraph 23 (Relocation) if so requested by such owner, which cooperation, joinder(s) or consent(s) shall not be unreasonably withheld, conditioned or delayed.

13. Abandonment or Termination. If, after Grantee constructs its own private water improvements within the easement area, Grantee abandons the use of the easement area or the easement area remains unused by Grantee for a continuous period of one (1) year, this grant of easement shall automatically terminate, and Grantee shall, at Grantor's request, or the request of the owner of the land through which the easement area

crosses, at any time after such abandonment, or at any time after a termination of this grant of easement under paragraph 15 (Default and Remedies), execute such documents as Grantor reasonably requests for the purpose of terminating this grant of easement. As used herein, the term "abandon" means that Grantee, through action or inaction, shows an intent to no longer use the easement area or portion thereof for the purposes for which this grant of easement is given, and upon written request by Grantor or the owner of the land through which the easement area crosses to Grantee requesting confirmation of continued use of the easement area, Grantee fails to respond in writing within a reasonable period of time not to exceed forty-five (45) days, Grantee shall be deemed to have abandoned the applicable portion of the easement area. Grantee hereby agrees that on or before the termination or cancellation of this grant of easement, or within a reasonable period following such termination or cancellation, if requested by both Grantor and the owner of the land through which the easement area crosses, Grantee will remove its own private water improvements from the easement area and will restore the easement area to the condition existing at the time of entry thereon, reasonable and ordinary wear and tear and damages by the elements or by circumstances over which Grantee has no control excepted.

14. Condemnation. If the easement area is taken or condemned in whole or part by any authority having the power of eminent domain, all compensation and damages awarded on account of the condemnation or taking shall be payable to the owner of the land through which the easement area crosses, without any apportionment to Grantee, except that Grantee may claim and recover from the condemning authority full compensation for any severance or other damages, including the cost of obtaining and relocating to a substitute easement area or right of way.

15. Default and Remedies. If a party fails to perform any of the terms, covenants and agreements contained herein, if such failure continues for a period of thirty (30) days after written notice, then the non-defaulting party shall be entitled to all remedies available to it at law or equity, including by way of example and not in limitation thereof, the right to sue such person for specific performance, injunctive relief and/or monetary damages, including without limitation, reasonable attorneys' fees, costs and expenses. Grantor shall have the right to terminate this grant of easement for a material breach by Grantee of the terms and conditions hereof, or a continuing material default of Grantee's performance of the terms and conditions of this grant of easement, if a court of competent jurisdiction determines that such termination is appropriate in the circumstances giving rise to Grantor's exercise of its rights and remedies at law or equity, and such court determines that other remedies are inadequate under such circumstances.

16. Rights to Cure. If Grantor, Grantee or the owner of the land through which the easement area crosses fails to observe or perform any of the terms, covenants or conditions contained in this grant of easement on the part of such party to be observed and performed (including both monetary and non-monetary obligations), or fails to observe or perform any of its obligation(s) hereunder within the time period specified herein for observance or performance, and fails to cure such nonobservance or nonperformance within any cure period (if applicable), without limiting any other remedy which may be available to the party seeking performance at law or in equity, the party seeking performance shall have the right (but not the obligation) to wholly or partially perform such covenant or obligation on behalf of the non-performing party after giving a second written notice demanding performance within a reasonable period of time, and indicating that the party seeking performance intends to exercise its rights of self-help under this paragraph 16 (Rights to Cure), at the cost and expense of the non-performing party if such performance does not

occur within such reasonable period of time. If such performance does not occur within such specified time period, the party seeking performance may enter onto the easement area and undertake such actions as the party seeking performance deems appropriate under the circumstances and with the facts known to such party at that time. If Grantor, Grantee or the owner of the land through which the easement area crosses exercise their respective rights under this paragraph 16 (Rights to Cure), then the non-performing party shall promptly reimburse the party seeking performance for any and all reasonable costs and expenses incurred by the party seeking performance in connection with such action, including without limitation, all reasonable consultants', experts' and attorneys' fees and costs, plus interest thereon at a rate equal to twelve (12%) per annum (but in no event more than the maximum per annum rate of interest permitted to be charged by then Applicable Laws) accruing from the date such costs or expenses are incurred under this paragraph 16 (Rights to Cure), until actually paid in full. In addition to the foregoing and not in limitation thereof, if Grantee fails to maintain the private water improvements or for any other reason, water leaks or otherwise is discharged from the private water improvements onto the land through which the easement area crosses, and after written notice by the owner of the land through which the easement area crosses (verbal notice being permissible if the breach is a major system failure), Grantee does not repair the private water improvements to remedy such situation within thirty (30) days of the owner's notice (or within the cure period demanded in the owner's notice if the breach is a major system failure or other emergency circumstance), then in addition to any other remedy that the owner of the land through which the easement area crosses has, such owner shall have the unilateral right to shut off the water being transmitted through the private water improvements unless and until the private water improvements are fixed.

17. Notices. All communications hereunder will be in writing and shall be deemed duly communicated when delivered in person, sent by facsimile transmission, sent by email, or four (4) days after being sent by certified or registered mail, postage prepaid, addressed to:

18. Expenses of Enforcement. If any of Grantor, Grantee or the owner of the land through which the easement area crosses brings any legal proceeding to enforce any of the terms, covenants or conditions hereof, the unsuccessful party in such proceeding shall pay the prevailing party's costs and expenses, including reasonable attorneys' fees, incurred in the bringing or defending of such proceeding.

19. Remedies Cumulative. The remedies set forth herein shall be in addition to remedies otherwise applicable or provided herein or otherwise available at law or in equity, it being understood that all rights and remedies shall always be non-exclusive and cumulative and that the exercise of one remedy or form of relief available hereunder shall not be exclusive of, or constitute a waiver of, any other.

20. No Waiver. The failure in any case to enforce the provisions of any covenant, condition, restriction, obligation or charge of this grant of easement shall not constitute a waiver of any right to enforce any such provision of this grant of easement in any other case.

21. Grantor's Reservations. Any other provision herein notwithstanding, and in addition to any other reservations set forth in this grant of easement, this grant of easement is subject to the reservation unto Grantor, its successors and assigns, of the following rights, to which Grantee hereby consents: (a) the right to utilize or to permit others to utilize the easement area, and (b) the right to make one or more irrevocable, nonexclusive grants or assignments of nonexclusive rights in the easement area from time to time to governmental authorities, public or private utilities or others.

22. Designation of Land Court Easement. Grantor shall seek subdivision approval for the easement area from the Department of Planning and Permitting of the City and County of Honolulu, and designation of the easement area in the Office of the Assistant Registrar of the Land Court of the State of Hawaii. Upon such designation of the easement area, Grantor and Grantee shall amend and restate this grant of easement in its entirety to incorporate herein the new legal description of the easement area. Grantee shall reimburse Grantor for one-half of the cost to obtain such governmental approvals to create such Land Court designated easement, and the cost to amend and restate this grant of easement, as and when invoiced by Grantor.

23. Relocation. Any other provision herein notwithstanding, this grant of easement is subject to the right of the owner of the land through which the easement area crosses from time to time to realign or relocate the easement area to minimize interference with the owner's use of the property described in Exhibit B for agricultural purposes, provided that (i) the owner shall be responsible for paying the cost of realigning or relocating the original easement area (including the cost of realigning or relocating utilities, the private water improvements and other infrastructure or improvements within the easement area), (ii) the realigned or relocated easement area shall be at least as wide as the original easement area, and shall not unreasonably increase the cost of maintenance, repair, replacement or operation of the private water improvements of Grantee, and (iii) upon completion of such realignment or relocation, the owner of the land through which the easement area crosses shall enter into a new grant of easement with Grantee for such realigned or relocated easement area, which new grant of easement shall be in substantially the same form as this grant of easement and the parties shall concurrently cancel this grant of easement. Grantee, by executing this grant of easement hereby consents to the foregoing rights of the owner of the land through which the easement area crosses.

24. Multiple Grantees. If there are more than one grantee under this grant of easement, then all such persons shall be jointly and severally bound by the Grantee's covenants in this grant of easement and any notice given to any one person by Grantor or by the owner of the land through which the easement area crosses shall be deemed to be notice upon all such persons.

25. Binding Effect. This instrument shall be binding upon and shall inure to the benefit of Grantor, Grantee and the owner of the land through which the easement area crosses, and their respective heirs, devisees, personal representatives, successors, and assigns.

26. Counterparts. The parties hereto agree that this instrument may be executed in counterparts, each of which shall be deemed an original, and said counterparts shall together constitute one and the same agreement, binding all of the parties hereto, notwithstanding that all of the parties are not signatory to the original or the same counterparts.

LIMITED WARRANTY DEED WITH COVENANTS AND RESERVATION OF RIGHTS

KNOW ALL MEN BY THESE PRESENTS:

That on this 3rd day of Sept., 2008, JAMES CAMPBELL COMPANY LLC, a Delaware limited liability company (the "Grantor"), whose address is the James Campbell Building, 1001 Kamokila Boulevard, Kapolei, Hawaii 96707, in consideration of the sum of TEN AND NO/100 DOLLARS (\$10.00) and other valuable consideration previously paid to Grantor by SYNGENTA HAWAII, LLC, a Hawaii limited liability company (the "Grantee"), whose address is 7500 Olson Memorial Hwy., Golden Valley, MN 55427, the receipt and sufficiency of which is hereby acknowledged by the Grantor, and upon and subject to the covenants and conditions herein set forth, **DOES HEREBY GRANT, BARGAIN, SELL, and CONVEY** unto Grantee, its successors and assigns, forever, that certain parcel of real estate (the "Property") situated at Honouliuli, District of Ewa, City and County of Honolulu, State of Hawaii, and more particularly described in Exhibit A attached hereto and incorporated herein by this reference, subject to the reservations and encumbrances herein and in Exhibit A attached hereto, **AND SUBJECT ALSO TO THE FOLLOWING COVENANTS, RESERVATIONS, AND AGREEMENTS:**

1. Drainage. Grantor hereby reserves the right to have existing surface runoff of water from lands upslope from or adjacent to the Property flow through the Property towards more downslope lands. Grantee shall develop the Property so as to accept such existing drainage from the benefitted upslope lands and to avoid any development of the Property that would increase surface runoff and damage adjoining lands from water runoff, and, if required by applicable government authority, Grantee shall construct any drainage structure necessary to accept such upslope surface runoff and/or to prevent such damage.

2. Reservation of Rights.

a. Kunia Road Widening Setback. Grantor hereby reserves unto itself, and unto its successors and assigns, the right, at their own respective cost, to create a road widening setback of no more than thirty (30) feet along the boundary of the Property and Kunia Road (the "road widening setback") by designating the same in the Office of the Assistant Registrar of the Land Court of the State of Hawaii.

b. Rights and Obligations for Use of the Road Widening Setback. Grantor hereby reserves on behalf itself, and its successors and assigns, the right: (i) to construct, reconstruct, install, reinstall, use, operate, repair and maintain the road, curb, sidewalk and utilities within the road widening setback, (ii) of ingress and egress to and from the road widening setback through portions of the Property immediately adjacent to and above the road widening setback as reasonably necessary for the purposes enumerated herein; (iii) to grant easements to public utilities or governmental authorities to use the road widening setback which will be in the form normally and customarily used by such public utilities or governmental authorities, as applicable, and (iv) such other rights in and to the road widening setback as are reasonable and consistent with the intent and purpose hereunder. Once such a road widening setback is designated in the Office of the Assistant Registrar of the Land Court of the State of Hawaii, in addition to the foregoing reserved rights, Grantor hereby reserves unto itself, unto its successors and assigns the right to subdivide the road widening setback from the remainder of

the Property and Grantee, on behalf of itself, its successors and assigns, does hereby agree to cooperate with Grantor, its successors and assigns and with applicable governmental authorities in order to subdivide the road widening setback from the remainder of the Property and to thereafter dedicate the same in fee simple to applicable governmental authorities once such road widening improvements are completed.

c. No Joinder or Consent. Grantor, its successors and assigns may exercise all of the rights reserved under this paragraph 2 (Reservation of Rights) without the consent or joinder of any other person.

3. Release of Terms and Conditions. Grantor, its successors and assigns, shall have the unilateral right, in their respective sole discretion, to release all or a portion of the reservations, terms, covenants and conditions set forth in paragraph 1 (Drainage), and paragraph 2 (Reservation of Rights).

4. Property in "As Is, Where Is" Condition.

a. No Warranties. It is expressly understood and agreed that, Grantor has not made any representation or warranty, express or implied, regarding any aspect of the Property including, but not limited to, the implied warranties of merchantability, fitness for a particular purpose, suitability, habitability, quality, physical condition and value, and Grantor hereby disclaims any and all liability for any and all such representations and warranties. Grantee agrees that Grantee has had an opportunity to examine and investigate the Property, that Grantee has made all inspections, investigations and analyses, if any, that Grantee deemed necessary or appropriate to determine whether to proceed with its acquisition of the Property, and that Grantee has relied solely upon such examinations and investigations in acquiring the Property.

b. "As Is" Condition. Grantee acknowledges and agrees that it is acquiring the Property in its "as is, where is" condition, with all faults, if any, and that Grantee has assumed all risks regarding all aspects of the Property, and the condition thereof, including, without limitation: (i) the risk of any physical condition affecting the Property including, without limitation, the existence of any soils conditions, or the existence of archeological or historical conditions on the Property; (ii) the risk of any damage or loss to the Property caused by any means including, without limitation, flood or earthquake; and (iii) the risk of use, zoning, habitability, merchantability or quality of the Property or the suitability of the Property for its present use or future development; and (iv) the activities of Grantor and others on adjacent or other nearby lands.

c. Mutual Release. Grantee expressly releases Grantor, its successors and assigns, from any and all liability and claims that Grantee may have against Grantor, its successors and assigns with regard to: (i) known Hazardous Materials (as this term is defined in paragraph 4.g(3) (Hazardous Materials)) existing on the Property on or before the Recording Date (as defined in paragraph 4.g(5) (Recording Date)) of which Grantee is actually aware, and (ii) Hazardous Materials released, leaked, spilled, overflow, discharged or emitted on or from the Property at any time from and after the Recording Date not attributable to Grantor, or otherwise resulting from occupancy or operation of the Property by Grantee or by Grantee's agents. Grantee agrees to incorporate such release of Grantor, its successors and

assigns in all subsequent conveyances of all or a portion of the Property. Grantor expressly releases Grantee from any and all liability and claims that Grantor may have against Grantee, its successors and assigns with regard to any unknown Hazardous Materials existing on the Property on or before the Recording Date of which Grantee is unaware.

d. Indemnity. Grantee shall Indemnify (as this term is defined in paragraph 4.g(4) (Indemnify)) Grantor, its successors and assigns from and against any and all claims and demands for loss or damage, including claims for personal injury, property damage or wrongful death, arising at any time on or after the Recording Date, as a direct or indirect result of or in connection with Hazardous Materials caused or permitted by Grantee or by Grantee's agents at any time on or after the Recording Date to be released, leaked, spilled, overflow, discharged or emitted on or from the Property, or otherwise resulting from occupancy or operation of the Property by Grantee or by Grantee's agents. Grantee's Indemnity contained in this paragraph 4.d (Indemnity) shall not be construed to apply to clean up of, or any consequential damages related to any contamination resulting from or attributable to: (i) any known or unknown Hazardous Materials existing on the Property on or before the Recording Date; or (ii) any Hazardous Materials migrating, entering or leaching onto, above, or beneath the Property at any time from and after the Recording Date from any adjoining or nearby land over which Grantee has no control or in which Grantee has no ownership interest. Grantee shall bear the burden of proof of establishing that the conditions set forth in the immediately preceding sentence apply, so as to relieve Grantee of its Indemnity obligations under this paragraph 4.d (Indemnity).

e. Adjacent Land Use. Grantee acknowledges and agrees for itself, its permitted assigns, transferees, and any other party claiming by, through or under it that: (i) Grantor has entered and may further enter into agreements with others for development and use of other lands owned by or formerly owned by Grantor located adjacent to or near the Property; (ii) such agricultural, developmental, commercial and other activities may involve by way of example and not in limitation thereof, noise, smoke, soot, dust, lights, noxious vapors, odors, and other nuisances of every description arising from or incidental to the activities conducted from time to time on adjacent or other nearby lands, subject only to zoning and other legal restrictions on use and resulting nuisances; and (iii) Grantee is acquiring the Property subject to all risks associated with the location of the Property. The foregoing shall not prevent Grantee from pursuing all remedies legally available to Grantee in the event of any violation of zoning or other legal restrictions on use and resulting nuisances.

f. Government Approvals. Grantee acknowledges that Grantor has made and makes no representations regarding Grantee's ability to obtain or retain the zoning, governmental approvals or permits necessary to use, occupancy or further development of the Property.

g. Certain Definitions.

(1) Applicable Laws. "Applicable Laws" mean all federal, state and local laws, statutes, ordinances, codes, rules, regulations, standards, directives, interpretations and conditions of approval, permits, and all legislative, administrative or judicial orders, decrees, requirements, rulings or judgments, which now or in the future may be applicable to the Property, to Grantor or to Grantee with respect to the Property or the

transactions contemplated by this instrument, and to any possession, development, improvement, operation, occupancy, use, enjoyment and other activities relating to the Property. Applicable Laws include Environmental Laws.

(3) Hazardous Materials. As used herein the term "Hazardous Materials" means, whether or not specifically defined or identified by Applicable Laws, shall mean and include, without limitation, oil or petroleum products or their derivatives, solvents, explosive substances, radioactive materials, asbestos, inflammable explosives, organic compounds (including polychlorinated biphenyl), pollutants, contaminants, hazardous wastes, toxic substances or related materials and any other toxic, ignitable, reactive, corrosive or related materials and any substances defined as or included in the definitions for "hazardous substances", "hazardous wastes", "extremely hazardous wastes", "hazardous materials", or "toxic substances" in the Environmental Laws.

(4) Indemnify. As the context requires, as used in this instrument, the term "Indemnify" means the protection of a party, by a money payment if necessary, against out-of-pocket loss. The term shall include an obligation by the indemnitor to defend and hold the indemnitee harmless (with counsel reasonably acceptable to the indemnitee) in connection with any claim against which the Indemnity operates. The obligation to Indemnify shall specifically include, but shall not be limited to payment of (or in the alternative, reimbursement of) all costs and expenses paid by the indemnitee or reasonably anticipated to be incurred by the indemnitee for the indemnitee's defense, including without limitation, reasonable attorneys' fees and costs, and all other consultants' reasonable fees and costs. An Indemnity shall also specifically include all costs for research regarding settlement or other preventive measures undertaken by the indemnitee with regard to any such claim.

(5) Recording Date. As used herein, the term "Recording Date" means the date that this instrument is filed in the Office of the Assistant Registrar of the Land Court of the State of Hawaii.

5. Indemnity. In addition to any other Indemnity contained herein running in favor of Grantor, and not in limitation thereof, Grantee shall Indemnify Grantor, its successors

and assigns, from and against any and all actions, suits, losses, costs, damages, liabilities or claims thereof, including attorneys' fees, arising out of or in connection with any action or omission by Grantee or Grantee's agents or representatives which is a breach of this instrument or Applicable Law, and which relate in any way to this instrument. D. Petitions for the Designation of Water Management Areas

- **Surface Water Management Area, Ahupuaa of Punaluu** - On January 20, 1994, the Punaluu Community Association (PCA) filed a petition "in order to protect surface water including stream flow, to guarantee the statutory rights of kuleana land owners as well as the riparian and appurtenant rights of others and also to preserve and protect the agricultural base and natural habitats which depend on such surface water." Moreover, PCA alleges ongoing "serious disputes." On March 16, 1994, the Commission approved continuing the designation process to investigate and determine the need for designation
 - **Surface Water Management Area, Na Wai Eha** - On December 6, 2006, Earthjustice, representing Hui o Na Wai Eha and Maui Tomorrow Foundation, Inc. filed a petition requesting that the Commission either: (1) recognize the watersheds of Waihee, Waiehu, Iao, and Waikapu Streams (collectively, Na Wai Eha) as part of the existing Iao Ground Water Management Area, or (2) designate the Na Wai Eha Surface-Water Hydrologic Units as a surface water management area. The chairperson consulted with the County of Maui's mayor, council, and water department prior to making a recommendation to the Commission regarding the proposed designation. The Commission, on February 21, 2007 approved the chairperson's recommendation to continue the designation process, which includes publicizing and holding a public hearing, initiating and completing investigations, completing findings of fact, further consultation with the Mayor, County Council, and the Department of Water Supply, and final Commission action. Notice was published and a public hearing was held at the J. Walter Cameron Center in Wailuku on April 26, 2007, to hear public testimonies regarding the proposed designation. A draft Findings of Fact was completed and there was further consultation with the County. The Commission, on March 13, 2008, designated the Waihee, Waiehu, Iao, and Waikapu Surface Water Hydrologic Units as surface water management areas. A public notice setting the starting date to submit water use permit applications will be issued soon. Existing users have one (1) year to file to continue their existing use status.

D. Petitions for the Designation of Water Management Areas

- **Surface Water Management Area, Ahupuaa of Punaluu** - On January 20, 1994, the Punaluu Community Association (PCA) filed a petition "in order to protect surface water including stream flow, to guarantee the statutory rights of kuleana land owners as well as the riparian and appurtenant rights of others and also to preserve and protect the agricultural base and natural habitats which depend on such surface water." Moreover, PCA alleges ongoing "serious disputes." On March 16, 1994, the Commission approved continuing the designation process to investigate and determine the need for designation
- **Surface Water Management Area, Na Wai Eha** - On December 6, 2006, Earthjustice, representing Hui o Na Wai Eha and Maui Tomorrow Foundation, Inc. filed a petition requesting that the Commission either: (1) recognize the watersheds of Waihee, Waiehu, Iao, and Waikapu Streams (collectively, Na Wai Eha) as part of the existing Iao Ground Water Management Area, or (2) designate the Na Wai Eha Surface-Water Hydrologic Units as a surface water management area. The chairperson consulted with the County of Maui's mayor, council, and water department prior to making a recommendation to the Commission regarding the proposed designation. The Commission, on February 21, 2007 approved the chairperson's recommendation to continue the designation process, which includes publicizing and holding a public hearing, initiating and completing investigations, completing findings of fact, further consultation with the Mayor, County Council, and the Department of Water Supply, and final Commission action. Notice was published and a public hearing was held at the J. Walter Cameron Center in Wailuku on April 26, 2007, to hear public testimonies regarding the proposed designation. A draft Findings of Fact was completed and there was further consultation with the County. The Commission, on March 13, 2008, designated the Waihee, Waiehu, Iao, and Waikapu Surface Water Hydrologic Units as surface water management areas. A public notice setting the starting date to submit water use permit applications was issued on April 30, 2008. Existing users have one (1) year to file to continue their existing use status.

D. Petitions for the Designation of Water Management Areas

- **Surface Water Management Area, Ahupuaa of Punaluu** - On January 20, 1994, the Punaluu Community Association (PCA) filed a petition "in order to protect surface water including stream flow, to guarantee the statutory rights of kuleana land owners as well as the riparian and appurtenant rights of others and also to preserve and protect the agricultural base and natural habitats which depend on such surface water." Moreover, PCA alleges ongoing "serious disputes." On March 16, 1994, the Commission approved continuing the designation process to investigate and determine the need for designation.
 - **Surface Water Management Area, Na Wai Eha** - On December 6, 2006, Earthjustice, representing Hui o Na Wai Eha and Maui Tomorrow Foundation, Inc. filed a petition requesting that the Commission either (1) recognize the watersheds of Waihee, Waiehu, Iao, and Waikapu Streams (collectively, Na Wai Eha) as part of the existing Iao Ground Water Management Area, or (2) designate the Na Wai Eha Surface-Water Hydrologic Units as a surface water management area. The chairperson consulted with the County of Maui's mayor, council, and water department prior to making a recommendation to the Commission regarding the proposed designation. The Commission, on February 21, 2007 approved the chairperson's recommendation to continue the designation process, which includes publicizing and holding a public hearing, initiating and completing investigations, completing findings of fact, further consultation with the Mayor, County Council, and the Department of Water Supply, and final Commission action. Notice was published and a public hearing was held at the J. Walter Cameron Center in Wailuku on April 26, 2007, to hear public testimonies regarding the proposed designation. A draft Findings of Fact was completed and there was further consultation with the County. The Commission, on March 13, 2008, designated the Waihee, Waiehu, Iao, and Waikapu Surface Water Hydrologic Units as surface water management areas. A public notice setting the starting date to submit water use permit applications was issued on April 30, 2008. Existing users have one (1) year to file to continue their existing use status.

D. Petitions for the Designation of Water Management Areas

- **Surface Water Management Area, Ahupuaa of Punaluu** - On January 20, 1994, the Punaluu Community Association (PCA) filed a petition "in order to protect surface water including stream flow, to guarantee the statutory rights of kuleana land owners as well as the riparian and appurtenant rights of others and also to preserve and protect the agricultural base and natural habitats which depend on such surface water." Moreover, PCA alleges ongoing "serious disputes". On March 16, 1994, the Commission approved continuing the designation process to investigate and determine the need for designation.
 - **Surface Water Management Area, Na Wai Eha** - On December 6, 2006, Earthjustice, representing Hui o Na Wai Eha and Maui Tomorrow Foundation, Inc. filed a petition requesting that the Commission either: (1) recognize the watersheds of Waihee, Waiehu, Iao, and Waikapu Streams (collectively, Na Wai Eha) as part of the existing Iao Ground Water Management Area, or (2) designate the Na Wai Eha Surface-Water Hydrologic Units as a surface water management area. The chairperson consulted with the County of Maui's mayor, council, and water department prior to making a recommendation to the Commission regarding the proposed designation. The Commission, on February 21, 2007 approved the chairperson's recommendation to continue the designation process, which includes publicizing and holding a public hearing, initiating and completing investigations, completing findings of fact, further consultation with the Mayor, County Council, and the Department of Water Supply, and final Commission action. Notice was published and a public hearing was held at the J. Walter Cameron Center in Wailuku on April 26, 2007, to hear public testimonies regarding the proposed designation. A draft Findings of Fact was completed and there was further consultation with the County. The Commission, on March 13, 2008, designated the Waihee, Waiehu, Iao, and Waikapu Surface Water Hydrologic Units as surface water management areas. A public notice setting the starting date to submit water use permit applications was issued on April 30, 2008. Existing users have one (1) year to file to continue their existing use status.

D. Petitions for the Designation of Water Management Areas

- **Surface Water Management Area, Ahupuaa of Punaluu** - On January 20, 1994, the Punaluu Community Association (PCA) filed a petition "in order to protect surface water including stream flow, to guarantee the statutory rights of kuleana land owners as well as the riparian and appurtenant rights of others and also to preserve and protect the agricultural base and natural habitats which depend on such surface water." Moreover, PCA alleges ongoing "serious disputes". On March 16, 1994, the Commission approved continuing the designation process to investigate and determine the need for designation
 - **Surface Water Management Area, Na Wai Eha** - On December 6, 2006, Earthjustice, representing Hui o Na Wai Eha and Maui Tomorrow Foundation, Inc. filed a petition requesting that the Commission either (1) recognize the watersheds of Waihee, Waiehu, Iao, and Waikapu Streams (collectively, Na Wai Eha) as part of the existing Iao Ground Water Management Area, or (2) designate the Na Wai Eha Surface-Water Hydrologic Units as a surface water management area. The chairperson consulted with the County of Maui's mayor, council, and water department prior to making a recommendation to the Commission regarding the proposed designation. The Commission, on February 21, 2007 approved the chairperson's recommendation to continue the designation process, which includes publicizing and holding a public hearing, initiating and completing investigations, completing findings of fact, further consultation with the Mayor, County Council, and the Department of Water Supply, and final Commission action. Notice was published and a public hearing was held at the J. Walter Cameron Center in Wailuku on April 26, 2007, to hear public testimonies regarding the proposed designation. A draft Findings of Fact was completed and there was further consultation with the County. The Commission, on March 13, 2008, designated the Waihee, Waiehu, Iao, and Waikapu Surface Water Hydrologic Units as surface water management areas. A public notice setting the starting date to submit water use permit applications was issued on April 30, 2008. Existing users have one (1) year to file to continue their existing use status.
